The Rolls Royce Merlin: A History of Power

Join us for a look at the history and development of one of the most iconic aircraft engines in history. It powered some of the world's greatest aircraft (and tanks, and boats). Hear how it came to be and how it evolved to be a huge factor in World War II and beyond.

Richard de Boer heads both the Calgary chapter of the CAHS and the Calgary Mosquito Society. He has previously worked for the Canadian Warplane Heritage and the Calgary Aerospace Museum.

Thursday, April 19, 2017
7:00 p.m.

ALL WELCOME. NO FEE. ALL AIRPLANE TALK. NO POLITICS
