ARROW II - Taking Flight!

In 1997, a group of Calgary volunteers came together with the intent of building a piloted replica of the Avro Arrow. An Alberta society was formed and registered as the Avro Museum, a charitable non-profit organization. Discover their goals, development history and methods in this rare venture!

Paul Gies is the Vice-President of the A.V. Roe Aviation Museum Association and project manager of the Arrow II. He has a strong background in composite materials design and development for airframe applications, and he worked 45 years with advanced electronics/mechanical systems.

THURSDAY, 25 FEBRUARY 2016

7:00 p.m.
