\*\*\*CALGARY CHAPTER\*\*\*

Presents:

## Lancaster FM159 and a Veterinarian

Presentation covers the restoration of FM159 to running condition and beyond. I have endeavoured to intertwine my professional career with my passion for history and for FM159. I will cover restoration projects, maintenance and operation of Lancaster FM159 with injections of some veterinary medicine for good fun.

Dr. Brian Taylor has been a large animal veterinarian since 1983 and presently work at the Highview Animal Clinic in High River AB. My association with the Bomber Command Museum of Canada began in 2005. That summer I first heard the purr of a Merlin and have been hooked ever since!

**Thursday, Feb. 28, 2019 @ 7 p.m.**
