## **The Greatest Weekend in RCAF Combat History: Duisburg October 14-15, 1944**

**With two 'maximum effort' raids in 24 hours, the raids on Duisburg highlighted the significant contribution of Canadian airmen during WWII. We saw this presentation at the Bomber Command Museum last August and immediately asked Karl to bring it to Calgary just for you.**

Karl Kjarsgaard has had a lifelong passion for aviation since being born in Moose Jaw in 1951. Karl earned his commercial pilots' license in 1971. He flew 20,000+ hours over the next 40 years retiring in 2011 on the Boeing 767. He is now a director of the Bomber Command Museum of Canada and is in charge of recovering and restoring a Halifax bomber.
