Do You Live on an Airport?

**A Survey of Calgary's Many Airports and
Major Flying Fields since 1906**

Where were these airports? How long were they there? What happened there and what is on the site now? Richard's presentation will address all of these questions with many never before seen photos and maps.

Richard de Boer currently serves as president of the Calgary chapter of the CAHS and of the Calgary Mosquito Aircraft Society. He started skydiving at age 17 and earned his pilot's license some years later. He has served as curator for Calgary's Aerospace Museum and the Canadian Warplane Heritage in Hamilton.
