CALGARY CHAPTER

Presents

Calgary's Connection to Northern Flying

Phil Lucas taking

Hal Rainforth resting on one of several dozen loads of dynamite in the sump at Stokes Point on the Beaufort Sea, 1973-4.
Hal Rainforth Collection

Investigation, investment and adventure combined to propel Calgary aviators into the air and wing their way to Canada's North. Calgary aviation author Shirlee Smith Matheson relates some humorous and hair raising stories of experiences undertaken by our local risk-takers and dealmakers when futures and fortunes were virtually up in the air. Come! Hear the stories! Their kind will not be told again...

*Shirlee's aviation books include **Flying the Frontiers Vols. I, II, and III**, and **Amazing Flights & Flyers**. **Maverick in the Sky** details the amazing life of one of Canada's esteemed First World War flying aces, Freddie McCall. New editions include **Lost: Unsolved Mysteries of Canadian Aviation** (2015), and **This Was Our Valley**, relating the history of hydroelectric dams on the Peace River, (scheduled for release 2018/19).*

Thursday, Nov. 22, 2018 @7:00 p.m.
